# Welcome

The past few years has seen a huge surge in the popularity of video as a marketing format. A short well-made video in an easy-to-digest format gives our eyes a rest from reading text and explains why the world watches a billion hours of YouTube videos every day! Video can be a powerful way to spread a message in a way that is easily accessible to a large audience.

Plus! Customers are more likely to use you when they understand what you do and how it will help them. So ... we have created a video for you to use in your marketing and sales efforts. See page 10 for details. Don't forget to check out our **Video Library** and our **YouTube Channel!**

At the time of writing this letter, UFO proudly contains 110 hand-picked members in 101 countries. We are emerging from a difficult few years and its important now (more than ever) to belong to a strong growing network like UFO ... and even more important that you attend our 20th Network Meeting in Abu Dhabi!

**It is set to be a large networking event and even though it is several months away, we are processing new registrations every week.**

With the 2022 FIFA World Cup close by in Qatar, we are making our meeting even more fun! For the duration of our event, you will be able to challenge your fellow UFO Members to a game of table football or pool. Our specially hired tables will be found in our coffee break area, and we hope they will provide some amusement during our conference.

## AN UPDATE ON THE UFO WEEKLY MEET SCHEME!

Thank you to all those who are taking part in the scheme. We have loved hearing from you and the following is one example from Eurogate Logistics in Poland who are rotating the weeks with their air team and their sea team.

- Piotr Zielinski says; "Our air team will be represented by our Air Freight Manager, Piotr Gawronski and our sea team will be represented by Sea & Rail Department Manager in Warsaw, Rafal Budnicki, and by Sea Department Leader in Gdynia, Magdalena Michalak. Magda has long-term experience with UFO partners and will introduce Rafal. There will be also a chance to exchange our experience not only with sea solutions but also with rail."

The company's first virtual meeting was with Vendi from Trans Pacific International Logistics in Indonesia. They said; "We had a really nice conversation, described our strengths and possibilities to develop our mutual cooperation."

### Well done Eurogate Logistics and Trans Pacific!

Please don't ignore the **Weekly Meet** scheme! We know you are busy but we encourage every company to participate.

*Making time for a quick 1-2-1 video call and 'seeing' your UFO partners makes all the difference. You and your company will be much better remembered, even if no business is ready just yet, it might be in a week or a month – it helps to be in the forefront of people's minds.*

It is our most active Members who get the most from their membership.

We provide the tools and the network of agents - over **100 companies** - but it is up to you to turn those connections into projects and profit. [www.eurogate.com](http://www.eurogate.com) [www.transpac-logistics.co.id](http://www.transpac-logistics.co.id)

# UFO HOLDS EXCLUSIVE WEBINAR FOR THEIR MEMBERS

Universal Freight Organisation (UFO) recently held an **exclusive Webinar** for their Members with **Marco J. van Daal**, a lecturer/speaker who has over 20 years' experience extending to more than 55 countries on 5 continents.

Marco is author of the book **'The Art of Heavy Transport'** and in addition to being a contributing member of the American Society of Mechanical Engineers (ASME) and the European Association of Abnormal Road Transport and Mobile Crane (ESTA). Marco also delivered the training for UFO's **eLearning Platform**.

Fully funded by the Head Office, the Interactive Webinar was provided free for Members and featured an interesting **case study** of a power plant that planned an extension and went from **12 x 180** ton gensets to **6 x 300 ton**.

The fascinating case study showed how late changes in a project design can have a major influence on equipment selection and sourcing. Not to mention schedule overruns and all the associated cost. A perfect example that the heavy transport provider (or crane provider) should be involved from the early stages of the project.

The session took place on **2 May 2022** and was recorded for Members who were unable to participate due to varying time zones.

UFO President, **Rachel Crawford** said:

*"The fascinating case study showed that forwarders really are the world's greatest problem solvers! It also highlighted the vast amount of factors that go into the planning and execution of such projects."*

*"Marco's presentation included the perfect mix of videos, photos and diagrams which he explained in great detail. It really was a fantastic webinar and showcases the huge wealth of knowledge Marco has gained in his 20+ years in the industry."*
