RAISING FUNDS FOR SOS CHILDREN'S VILLAGES THAILAND

Since 1971, SOS Children's Villages Thailand have been helping children who have lost their parents in the form of long-term, family-like care.

Concept

The organisation believes that every child should grow up in a suitable environment and the 'family' is the best place. To help provide a happy childhood, they advocate for affording children who have missed out on the opportunity to be raised in their biological family a renewed chance to become part of a nurturing family unit once more.

How is SOS different from other similar organisations?

SOS Children's Villages Thailand cultivate a family-oriented environment for raising children, placing immense importance on each child's development and ensuring they grow into well-adjusted individuals. Their commitment spans the long term, guiding children from infancy to adulthood while providing them with the best possible education, enabling them to advance, pursue careers, and achieve self-sufficiency, ultimately leading fulfilling lives within society. Each child is nurtured by a devoted 'Mother' who shows them love and affection. SOS Mothers wholeheartedly embrace every child as an integral part of the SOS family, forging enduring bonds. Within the SOS family, boys and girls of diverse ages and backgrounds coexist harmoniously, fostering strong connections. The SOS family resides in the SOS Children's Village, an environment that fosters mutual support and care. Moreover, SOS Children's Villages form an integral part of their local communities, creating interdependence and reliance among one another.

How to help

During the booking process for our **21st Network Meeting**, you will be asked which amount you would like to donate and this will be added to your Registration Fee invoice. To register your place, **click here** (UFO Members only).

MY VISIT TO APEX INTERNATIONAL IN JAPAN

Dear UFO Members & Friends,

Last week, my cousin Jo and I embarked on our **long-anticipated journey to Japan**. Japan had been a dream destination on my bucket list for years, and from the instant we touched down until our departure, I was enchanted by this remarkable country. Our adventure led us to **Tokyo, Kawaguchi**, the awe-inspiring Mt. Fuji, and the cultural wonders of Kyoto, with the thrilling experience of riding the Shinkansen bullet train, of course!

A highlight of the trip was visiting our representative in Japan, **Steve Ko** and his wonderful Tokyo team including **Miyama, Takao, Ishihara, and Grace** at **Apex International**. Stepping into their well-appointed Headquarters (**see photo**) was a testament to their commitment to excellence, where the precision and attention to detail synonymous with Japanese craftsmanship were evident in every aspect of their workspace. Meeting their dedicated team was wonderful and their warmth and hospitality made us feel like more than just business partners. We exchanged memories of the many UFO network

meetings Apex has attended over a fantastic sushi lunch at a local restaurant. The visit not only deepened our understanding of Apex's operations but also enriched our appreciation for the beauty of Japanese culture. It was a truly great experience that left us inspired and eager to hold a network meeting in Japan one day!

Apex International became a part of UFO in January 2004 and has consistently been an active participant in our network meetings. Their consistently high rankings in our Quality Control Surveys reflect their commitment to excellence, and we take immense pride in having them as founding members of our organisation.

"Thank you again to Steve and his fabulous and friendly team at Apex!"

Best wishes,

*Rachel Crawford FCILT
President/C.E.O.*
